It is advised not to utilize the internet if connectivity is poor and/or less than 4 megabits per second (Mbps) upload and download speed.
- 3.4. In respect of lots auctioned on the Timed Auction, the following additional terms and conditions will apply:
 - 3.4.1. Subject to paragraph 3.4.2 below, lots on the timed auction will close as per the specified date and time per lot as advertised on the online bidding platform, subject to an Extension Period. The closing of lots may be staggered.
 - 3.4.2. In the event where bidding on a lot will close and a bid is received within two (2) minutes of the published closing time, the time to enter a bid shall be automatically extended for an additional period, which period is customarily two (2) minutes, but may vary from time to time (the "Extension Period").
 - 3.4.3. A lot will not close if a bid is received during an Extension Period and shall automatically be extended for a further Extension Period. A lot will only close if a final bid on the lot stands alone for a period equal to the Extension Period. The lot will only close if a final bid on the lot is received and stands alone for a period equal to the Extension Period.
 - 3.4.4. The "fall of the hammer" on a lot for the purposes of the timed auction is defined as the date and closing time published on the online bidding platform and/or the Seller's/Auctioneer's public websites, alternatively at the date and time a final bid on a lot stands alone for a period equal to the Extension Period, whichever occurs last.
 - 3.4.5. All lots on sale on the timed auction will have a minimum starting bid price which will be indicated on the online bidding platform. Any bid above the minimum starting bid price will not necessarily be successful as the lot may be subject to a reserve price. Should the reserve price not be met, the lot will not be sold and shall be marked to be 'Subject to Confirmation (STC)'. Should the aforementioned occur it is advised to make contact with the Auctioneer as soon as possible to obtain instructions from the Owner/Seller to explore the viability of entering a transaction. This does not create any right of refusal nor does it impose an obligation on the Owner/Seller or the Auctioneer to enter any transaction.
 - 3.4.6. The minimum bidding increment may vary per lot but is specified on the online bidding platform.
 - 3.4.7. Once a bid is made it cannot be withdrawn.
 - 3.4.8. Neither the Auctioneer, the Sellers' or the Auctioneer's representatives will be liable for any failure in connectivity or software while using the online bidding platform.
 - 3.4.9. Neither the Auctioneer, the Sellers or the Auctioneer or Sellers' representatives will be liable for software failure of any nature.
